***Flexible option for drivers includes insurance for worry-free access***

**ATLANTA, Oct. 16, 2015** - Assurant Specialty Property, a leading provider of risk management services, has teamed up with Flexdrive to provide insurance coverage for vehicles in its on-demand car program, which is currently available in Atlanta, Dallas, Austin and Nashville. This means drivers in these areas have worry-free access to a car anytime they want, for any purpose.

Flexdrive offers a fresh alternative to traditional car ownership—a weekly or monthly subscription that gives members access to everything they need to get on the road without a care. With Flexdrive, drivers get the car of their choice, maintenance, roadside assistance, and Assurant Specialty Property insurance— all included in the subscription fee. And since Flexdrive is built with freedom and flexibility in mind, members can use the mobile app to easily reserve and switch out cars as their needs change.

“Consumers are demanding affordability and convenience when it comes to mobility as a service, and Flexdrive is uniquely positioned to meet that growing need,” said Brian Tribble, senior vice president, Assurant Specialty Property. “A convenient and affordable approach to insurance is essential to this service, and Assurant Specialty Property has a track record of partnering with leaders in numerous businesses, from mortgage lending to multifamily housing, to protect consumers.”

Jose Ignacio Puente, general manager of Flexdrive, added: “Mobility is transforming at a rapid pace and requires new solutions and options for consumers. Insurance is a key component in making any new model successful, and this partnership with Assurant enables us to deliver on Flexdrive’s mission to be a convenient, worry-free solution for drivers who want the freedom of transportation without the hassles that come with traditional car ownership.”

“We’re expanding our reach and scope in the on-demand economy,” added Kathy McDonald, president, Property Solutions, Assurant Specialty Property. “The sharing economy is growing exponentially, and we see a strong opportunity to bring our expertise, from car sharing to vacation rentals.”
